

One Universal SurgiGuide®

... all implant systems

You want to use your standard surgery kit to perform guided surgery? Even if your implant company does not offer a guided surgery kit?

You want the accuracy of a single drill guide for the whole drill sequence?

...Universal SurgiGuide® ...

All implant brands
Any angle and position
Drill guidance
One guide
Affordable set of Drill Keys

Your Key Benefits

Flexibility

- All implant systems
- Use your standard surgery kit
- Wide selection of diameters
- Compatibility with drills of any brand
- Drill Keys for a flexible drill sequence

User-friendliness

- One Universal SurgiGuide® for the whole drill sequence
- Easy fixation before surgery — no need to reposition different drill guides during surgery
- Universal SurgiGuide® Handle to reach any angle and any position in the patient's mouth
